

## Leugers Insurance Staff Participates in CPR Training

Leugers Insurance employees participated in CPR, AED and first aid training over the last few weeks. We encourage our staff to always be prepared for any situation and this was a great opportunity that was provided to us. In the event of an emergency in any of our offices, our staff will be able to access the situation and provide life savings measures until help arrives. Leugers Insurance encourages everyone to take similar courses as you never know when an emergency can happen.
