Leugers Insurance Opens Location in Sidney

Leugers Insurance was established in 1914 and has been servicing the Shelby County community since. The success over the years has allowed our agency to grow and expand into the Sidney and Shelby County area with a new office building located at 2451 W. Michigan Street in the fall of 2021. “With the many relationships we have developed in the Shelby County area, opening an office building in Sidney felt like a natural fit for Leugers Insurance. This location will allow us to continue those relationships and give us the ability to create new ones.” said agency principal Brad Seitz. The Sidney office is the fifth location for Leugers Insurance and compliments the existing offices in Maria Stein, St. Marys, Celina, and Ottawa.

Leugers Insurance is an independent agency representing over 15 property and casualty carriers. We are a multi-faceted agency with a staff of 41 that is focused on providing all of your insurance and financial services in one stop. Our team approach provides exceptional customer service from home, auto, farm and business insurance to Medicare supplements and financial services. Leugers Insurance is client focused with multiple ways to assist you. Our staff is able to meet with you in person, whether that is at your home or in the office, or over the phone or email. Leugers Insurance has enhanced their client interactions by implementing a service text line allowing the client to submit information when it is most convenient for them - day or night! Clients are also able to access their policies at any time through the new client portal.

“Over the years, we have given back to the Shelby County community through various events including local fire departments. Most recently, we provided a grant to Big Brother Big Sisters through a partnership with Westfield Insurance. Our annual toy drive also benefited Help Me Grow and Ohio Early Intervention of Shelby County in December and we look forward to more opportunities in the years to come.” said agency principal Mark Heitman.

While we have been in the community for many years, we are excited to have a physical location to service our existing clients and provide opportunities for new clients. We encourage the community to stop in and meet our staff and see how we can assist you or even just say hello and meet the staff that has been assisting you for many years.
