Ways To Protect Your Family From Identity Theft

Are you protecting you & your family from potential identity theft? Social media & technology play a big party in everyday life for all ages. ID Theft coverage is designed to help cover some of the costs that you may have after being defrauded. Please contact our office to make sure you and your family are covered! Below are some additional tips on how to protect your identity:

- Use multifactor authentication
- Label the inside of children's belongings, not the outside
- Monitor children's technology usage
- Wait to share your vacation photos on social media
- Configure your smart home technology
- Keep your Wi-Fi password safe
- Update your devices
- Keep purses and wallets out of sight
- Store and discard documents securely
- Educate your family about phishing, vishing and smishing
