Reliable. Knowledgeable. Professional.

December 2022

Did you receive a high value Christmas gift that needs covered?

Were you gifted something valuable this Christmas? Items like an e-bike, hoverboard, or scooter are popular gifts, but come with potential liability. You may collide with another vehicle, or even another person while operating one of these micro mobility devices. These items can be added to your home, auto, or motorcycle policy to ensure full coverage during a loss situation.

Or maybe you received a precious piece of jewelry that is not fully covered under warranty. Jewelry can be added to your homeowners policy for coverage in the event of a loss, theft, or damage.

Contact our office today to add your new Christmas gifts to your policy!
