May 2023

Motorcycle Insurance

The month of May brings nicer weather which means motorcycles will be back on the road. Motorcycle liability insurance is required in Ohio and you may want to add comprehensive and collision coverage as well.

Motorcycle comprehensive coverage will help protect against events beyond our control, including theft, vandalism, windshield damage, fire, hitting an animal, and acts of nature. Motorcycle collision coverage will protect against a crash with another vehicle or object.

Other coverages you will want for your motorcycle policy include Uninsured/Underinsured Motorist and Medical Payments.

If you are a motorcyclist operating a motorcycle this season, please call us to ensure adequate coverage!
